Died: 23

Dogs: 0 Cats: 23

Euthanized: 9

Dogs: 7 Cats: 2

LIFE-SAVING STATISTICS

Live Release: 94% (live outcomes/total outcomes)

Because we take in some very vulnerable and sick animals- including newborn infants that require bottlefeeding- some of the animals in our care do pass away or are humanely euthanized to end suffering when no amount of medical intervention can save them. If you exclude these animals from our healthy, releasable, population, ***our release rate is 99.5%***.

*Transfers are animals coming from other rescue or animal control agencies that were facing immediate euthanasia without our assistance.
